## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of claims 40,41 and 47-50 in the reply filed on 8/2/05 is acknowledged. Accordingly claims 1-39, 42-46 and 51-56 have been withdrawn from further consideration.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 40,41 and 47-50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 40 recites, "determining a price of an underlying security" at a first time. First there is no antecedent basis for the term "an underlying security" provided, i.e. no clear indication as to what the term "underlying security" refers is provided. Is the underlying security related to another security in a manner that a warrant or a derivative contract is related to a common stock of a corporation? Similarly no basis is provided for calculating a discount price of the underlying security. In the final analysis, the claimed invention is rendered vague and unclear for the foregoing reasons.

Appropriate corrections are required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 40,41 and 47-50 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kroll, Arthur H (Exploring Options, HR Magazine v42n10 pp 96-100 Oct 1997) (hereafter referred to as Kroll).

As per claims 40,41 and 47-50 Kroll teaches all limitations of the aforementioned claims (refer to TYPE OF OPTIONS on p.2, in particular “discounted stock options”). Here the underlying security refers to “employer’s stock” and discounted security refers to “discounted stock option”.

***Conclusion***
